Clinical Pathway Reasoning (CPR)	Reasoning	Medical Case	Kendall's Tau	95

Description
Disrupting the clinical pathway of patients and task LLMs with deducing their proper sequence through logical reasoning.

Design Rationale
Clinical pathways outline standard care processes for specific health conditionsm, LLMs' understanding of it is crucial for guiding treatment decisions and patient management.

Example	
Prompt	你是一位专业的医学领域专家。以下提供了一位病人在一次住院期间的经历的多个步骤，但是顺序被打乱了，现在请利用你的医学知识，推理出这位患者经历步骤的正确顺序。...... \n 以下是提供的患者经历。 You are a professional expert in the medical field. The following provides several steps of a patient's experience during a hospitalization, but the sequence has been disrupted. Now, please use your medical knowledge to deduce the correct order of the steps the patient experienced. ...... \n Below is the provided patient experience.
Input	## 入院情况: A. 患者男，39 岁。主诉鼻咽癌术后...... \nB. 患者入院来神志清醒，进食可...... \nC. 患者同意接受手术快速冰冻诊断。\nD. 血常规、出凝血功能、血糖、心电图检查均正常...... ##Admission condition: A. Male patient, 39 years old. Presents with complaints of postoperative nasopharyngeal carcinoma... \nB. Upon admission, the patient is alert and able to eat... \nC. The patient agrees to undergo rapid frozen section diagnosis. \nD. Routine blood tests, coagulation function, blood glucose, and electrocardiogram are all normal...
